# Trick Parts for your Toyota IFS

## Diff Relocation Brackets

Replacement for 3 factory diff brackets  
Drops diff 1" to re-align CV angles with lifts over 2"

Comes with all bushes and bolts

AUSTRALIAN MADE

## 20mm Extended Factory Style Ball Joints

Use with Factory Upper Control Arms to flatten out your UCA and allow more caster in your wheel alignment.  
Allows more clearance on the coil as the UCA moves in down travel.

## Bash Plates

4mm Steel Plate Construction  
Zinc coated for durable finish  
All mounting bolts included

## Upper Control Arms

4130 Chromoly Tube all TIG welded construction  
Teflon lined FK 1.25" uniball  
Anodised billet top cap to keep dirt out of the uniball.

Unique rubber boot on the bottom of the uniball to protect from water and dirt.

Greasable nipple fittings and Prothane bushes.

Easy Bolt on installation. No modifications required to fit this item.

Extra Castor built into the design to suit lifted applications.

Additional clearance on the coil as the suspension moves towards full droop.

AUSTRALIAN MADE

## Swaybar Relocators

Spaces the swaybar away from the CV shaft and Shock stem in lifted set ups.  
Black anodized and all bolts included

## All-In-One CV Tool

This must have tool is all you will need to replace a CV on your IFS Hilux.

\* Extended Rear Shackles

# Axis

This new hybrid front bar incorporates the strength of single piece 75mm mandrel bent steel tube, with plate construction to introduce a new standard in front bar design. With great approach angle and far less overhang of other bars the Axis bar will transform the look and performance of your Hilux. Fits all standard low mount winches.

GU Patrol and New Ford Ranger models coming soon!

## Lockable Canopy Frame

This new design in flexible storage will transform your Hilux for touring and daily duties. Safely and securely lock up your animals, fridge or tool in the front compartments.
